Rapid Planning Method (RPM)

There is one tool above all others that influences the quality of life: the capacity to take a vision of what you want and make it real. The key to this game of life is living it on your terms, in an extraordinary way. What is that for you? How would you know if your life was truly magnificent, extraordinary, unique, special, and what you've ultimately wanted?

When somebody has attained an extraordinary life, they have found a way to maximize their resources; their time, their physical energy, their health, the people they know, and the concepts they've learned. They've learned to not only maximize what's available to them, but they've also learned to maximize their level of enjoyment.

When it comes to your life, it really comes down to your emotions, how you feel. If you've got \$10 billion but constantly live in stress, anger, frustration, worry or guilt, then your life is stress, anger, frustration, worry or guilt. Where focus goes, energy flows.

Focus equals power. If anyone is successful at anything, and not just once in a while but on a consistent basis, they are not lucky, they are focused. They are crystal clear about what they want. The clearer you are about what it is you want, the easier it is to achieve it, because your brain can figure out how to get there. The fuel behind getting there is having a compelling purpose and a reason that will move you. Your fuel is what will drive you while you navigate your life's map, and your massive action plan on how to get from where you are to where you want to be.

Before you can answer the question, "What am I going to do?" you've got to first ask the question, "What do I want?" That shift in focus will change completely how you respond in your life. It will change you from focusing on everyone clse's demands for your attention, or what you're afraid of, or what might give you pleasure in the moment, to what's most important to you.

RPM planning is a way to maximize the results of your life and maximize your sense of fulfillment and joy. What's most important to you as an outcome (a result) and why it is important to you (your purpose) will give you the juice to move forward toward realizing your dreams. If you've got a strong enough reason and a strong enough purpose, you will figure out how to pull it off.

1. Two-decisions I've been putting off which, when I make them now, will. What changes your life is making decisions and using your Personal Power, which is your ability to take consistent action. The Ultimate Success Formula Know your outcome. Get yourself to take action by deciding to do so. Notice what you're getting from your actions. If what you're doing is not working, change your approach. To save time and energy, use role models to accelerate the pace of your success: Find someone who's already getting the results you want. Find out what that person is doing, Do the same things, and you'll get the same results. It's impossible to fail as long as you learn something from what you do? YOUR ASSIGNMENT: 2. Those simple things I can do immediately that will be consistent with my two new decisions: Write two decisions you've been putting off which, when you make them now, will change your life. Now that you've made a real decision, you must take immediate action. To do that, write down the first few steps. What are three "There's always. simple things you could do immediately-right now-that would a way if you're be consistent with your new decisions? (For example, if you committed." decided to stop smoking, what could you do with the eigarettes that are in the house right now?) Who could you call? What could you commit to? What letter could you write? What could you do instead of your old behavior? List the immediate actions, and then take action on them right now, in this moment. Never leave the site of setting a goal or making a decision without taking some action toward its attainment. That's how you create momentum and start to tap into the real driving force within you. 5.

Tony was interested in motivational speeches and wanted to be one. During Cié, he also married with a famous baseball player, Jim Robbins. She left her family at the age of 17 and never attended college. Royal name / Full Nameanthony J. This is the books of him have been sold millions of times.
